**ATTACHMENT TO DIAGRAM C**

The Base area consists of rooms A, B, C, D, E, F, & G and entry area.

The proposed vault area is room D and the changes in the room are as follows:

- a. Removal of entry door between rooms C and D.
- b. Removal of walls which form room E.
- c. Change access door to generator room from present position to permit direct access from room D and place second door in office C.
- d. Transfer vault door from room F to entrance of storage area. (During working hours, the door from room B to storage area can be closed to hide the presence of a vault-type door.)
- e. Removal of wall between the two storage areas to increase the space available for supplies.
- f. Installation of accoustical tile in room D.
